

6516207067.txt

I support XM Radio and their instant traffic and weather. I think it is ridiculous that the NAB wants to limit XM services. We PAY for XM, not radio. In essence, if this petition passes, it will allow other companies to dictate what their competitors may or may not offer. It is unconstitutional and against everything this country was built on.....FREEDOM.
I respectfully urge you to reject petition 04-160.

Thank you for your time.
